Mishkan Museum of Art, Ein Harod

חוג הידידים *Friends*

The Mishkan Museum of Art, Ein Harod is a magnet for lovers of art and culture, researchers, curators, and artists from Israel and throughout the world. It began as an “art corner” established on the Kibbutz in 1938, in a small wooden shack used as the atelier of local painter Haim Atar, the museum’s visionary and founder. Kibbutz members began building the permanent structure of the museum in 1948.

Twelve exhibition halls, sculpture gardens and inner courtyards, a library, restoration studio and an impressive collection of more than 20,000 works of art were built to fulfill the museum’s purpose - a place of testament to and exhibition of Jewish and contemporary art, of art education, a place of gathering, and significant expansion of cultural activities within Israel’s north and in the field of art in Israel.

Our Vision

The Friends of the Mishkan Museum of Art, Ein Harod has been created in the firm belief in the important role this unique museum has to play in the Israeli art scene and in the Israeli culture scene more broadly. Our goal is to build a group of Friends who will support the Museum’s activities by their presence at our exhibits, by their taking part in promoting the Museum’s objectives and by sharing in its creative endeavors. The Friends of the Mishkan Museum of Art, Ein Harod aims to help build on the Museum’s rich historical, architectural and artistic past in order to ensure its ongoing vibrancy and future relevance.

Objectives

We seek to expand the circles of awareness of and build support for the Mishkan Museum of Art, Ein Harod and to raise sufficient funds to ensure its economic sustainability. We aim to create a community which makes its presence felt through local and national initiatives, including educational and other cultural programs, and participates in the life of the Museum as it develops innovative programs and new activities.
